The **GAN Adjustment** screen displays all active GANs created by the logged-in user, as well as the current status of each GAN.

Once a GAN has been completed, it will move from **Active** status to **Approved**. If the program office/OCFO needs to request changes, it will send a change request back to your organization and the GAN will move from **Active** status to **Change Requested**. The same is true for a GAN that is denied by the program office or OCFO.

1. Click the **Create Grant Adjustment** link.
