Training

PPCT TO SETCAN SUBJECT CONTROL

When Setcan tested subject control skills from a random selection of officers within a large municipal police agency, a commonality of response was observed. What was most telling was that the techniques most commonly observed were not the techniques taught by the agency.

Course Description:

After spending years analyzing, researching and refining, Setcan has developed a new system of subject control that is quickly revolutionizing how trainers approach this area of instruction.

The Principle Based Subject Control System.

- Tactical Communication
- Balance and Stance
- Proper and Effective Handcuffing
- Personal Weapons

- Pressure Points
- Tactical Battle Plan
- Ground Control
- Take Downs
- One vs Two Officer Tactics
- Weapon Retention
- Less Injurious Targets
- Principle Based Joint Lock System
- Vascular Neck Restraint (if required)
- and Shoulder Lock Techniques
- SABRE O C Spray
- Biomechanical Breaching
- Expandable Baton
- Searching
- SICDS
- Extraction/Interventions
- Officer Safety Issues

Training 2

- Utilizing enhanced scenario training as well as certified and trained role players
- Realistic scenarios elicit realistic responses

Training Equipment XRAY

Inert Threat Screening Kit – TSK1000 ITAR Controlled

Accurate: Density, X-Ray and WTMD, Z_{eff}

Technology: Backscatter, Computed Tomography, Single and Multiple X-Ray Generator Systems, mmWave

Approvals: DSA is a DHS/TSA qualified vendor list (QVL) provider for training aids.

Training – Shockknife

Spontaneous Edged Weapon Defense

Training – StressVest

Training – Visual

Stroboscopic Training

Developed by Nike for Michael Jordan

Used by Professional athletes in all sports

Improves Visual Tracking

Causes user to Hyper Focus

ENHANCE ISOLATION DRILLS / FLASH SCENARIOS/ APP Controlled

Training – Visual 2

Stroboscopic Training

MILITARY & LAW ENFORCEMENT Applications

- Expands peripheral awareness for elevated threat detection
- Dominant eye assessment strengthens perceptive skills
- Improves balance when moving or stationary
- Increases training efficiency for a greater return on investment of skill and savings
- Highly effective with both simulation and live-fire exercises
 - Skills trained:
 - Focus
 - Anticipation
 - Visualization
 - Reaction
 - Depth Perception
 - Peripheral Vision
 - Balance and Stability

Training – Visual 3

MILITARY & LAW ENFORCEMENT

High Security Restraints

Patented Shim-Resistant Deadbolt

SPRING EXTENDED
Ready-to-Cuff Position (Green Dot)
The Cuff Jaw bounces on the spring

SPRING COMPRESSED
Cuffs Jaw is open for cuff removal

Housings:

Aluminum High Impact Cuff-Maxx Housings

Key Systems:

Medeco High Security - Restricted Key System

ASSA Desmo High Security - Restricted Key System

Keying:

Keyed Alike to One Key Number

Keyed Differently to Assorted Key Numbers

Key to an Existing Key Number

NOTE: Signature Authorization Required

High Security Restraints Transports

Sheriff Prisoner Identification Vest

Not a Restraint, used for inmates in transport wearing street or court clothing.

If escape attempt is made quickly and easily identifiable.

High Security Restraints Transports

Flights

High Security Restraints Courtroom Options

Portable Prisoner Boxes for High Security inmates and Multi Accused Trials

- Optional: Secure Leg Irons to eyelet in floor

High Security Restraints
