

September is National Recovery Month. According to SAMHSA, 23 million Americans are currently addicted to alcohol and/or other drugs and only 1 in 10 receive treatment. That is a treatment gap of more than 20 million Americans.

This nationally recognized month, themed "Recovery is For Everyone: Every Person, Every Family, Every Community", focuses on promoting new evidence-based treatment and recovery practices, the emergence of a strong and proud recovery community, and the dedication of service providers and community members across the nation who make recovery in all its forms possible.

NCJTC is proud to offer training and resources to help support these efforts. Visit ncjtc.org/asa for all of the details.

What's New at NCJTC?

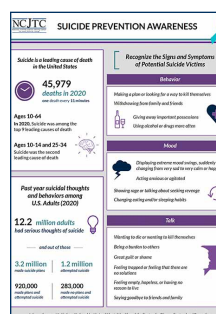

Critical 3 Video

Pathway to Tribal Law Enforcement Diversion

Does your tribal community see individuals struggling with addiction cycling through the criminal justice system without gaining access to treatment and recovery services? Did you know that law enforcement can be a key intercept point to divert individuals to treatment and healing to wellness programs versus being arrested, prosecuted and incarcerated? Kevin Mariano shares 3 critical points in establishing and implementing a successful tribal law enforcement diversion program.
