

# Training and Technical Assistance Catalog

2023 EDITION

Brad Russ | Executive Director  
National Criminal Justice Training Center  
of Fox Valley Technical College

NCJTC is dedicated to developing new programs and resources to meet the constantly evolving needs of the criminal justice communities we serve. In addition to an array of scheduled regional training events, NCJTC stands ready to assist you in hosting technical assistance and other programmatic support activities important for your community. With more than 30 years of experience and 150+ subject matter experts skilled in working with smaller departments, as well as rural and tribal agencies, NCJTC provides training and resources uniquely and strategically positioned to address the challenges and needs most important to you and those you serve. We remain committed to finding new opportunities to more effectively work with and protect America's tribal communities and indigenous sovereign nations by leveraging the subject matter expertise of our tribal liaisons and law enforcement personnel.

Through U.S Department of Justice federal grants, NCJTC is pleased to announce two new programs to complement the vast programs we currently offer, **The Internet of Things (IoT) National Training and Technical Assistance Program** and **The Emmett Till Cold Case Prosecution Program**. The IoT Program provides emerging technology training and resources to help you prevent, solve, and prosecute crimes involving IoT devices—electronic objects with sensors, processors, or software that connects to and exchanges data with other devices and systems via communications networks. Many investigators are unaware of the valuable information collected by the growing number of “smart devices” people carry or have installed in their homes, businesses, and vehicles. Our IoT training program can help you understand how to extract data from these devices, properly store and analyze the information, and use it to inform and support an investigation. Our program's training and resource materials also can help you educate your communities about IoT-related security and privacy

issues that can help reduce victimization. In January 2023, NCJTC hosted its inaugural annual National IoT Investigative Conference, which brought together nearly 100 participants from 27 states.

The Emmett Till Program, in cooperation with the U.S. Bureau of Justice Assistance and Behavioral Science Unit LLC, provides training and technical assistance to law enforcement agencies working to investigate and prosecute cold case murders associated with civil rights violations that occurred on or before December 31, 1979. Training offered through this program is designed to help you employ powerful tools to help solve civil right-related cold case investigations.

NCJTC is committed to continuous learning and process improvements to effectively meet your training and technical assistance needs. Although in-person training has been the foundation of services for decades, our year over-year growth in the areas of self-paced eLearning and live webinars positioned us to swiftly respond to the massive virtual training needs which arose from the Covid-19 pandemic. As in-person training returns to pre-pandemic levels, we will continue to develop and offer flexible training options which optimize your access to important information and resources. Look to us now and in the future for classroom training, live and on demand webinars, self-paced eLearning, live virtual training, and hybrid courses! Visit [ncjtc.org/training](https://ncjtc.org/training) for upcoming opportunities and downloadable resources.

On behalf of the NCJTC staff and associate cadre, 220-strong and growing, we are excited and honored to work with you in 2023 – and beyond!

Brad Russ, Executive Director  
National Criminal Justice Training Center

## Connect with NCJTC

**We're Here to Help!** If you do not find what you are looking for or need a customized solution to a unique community challenge, please contact us. Our staff and subject matter experts are here and ready to serve your training needs.

# What's New at NCJTC

## New Classroom Trainings

- Responding to Sextortion Related Offenses Against Children (page 8)
- Strengthening Child Abuse and Exploitation Cases with Statement Evidence (page 8)
- Child Sex Trafficking Investigations: Strategies to Increase Prosecutions of Traffickers of Missing Children (page 9)
- A Bridge Towards Change: Successful Tribal Resource Planning (page 12)
- Effective Outreach Efforts in your Tribal Community (page 13)
- How Do You Measure Up? Examining Tribal Program Effectiveness (page 13)
- One Seed At A Time: Tribal Action Planning Strategies (page 13)
- Tribal Program Effectiveness Checklist (page 13)
- Tribal Victim Advocacy Training Workshop (page 13)
- Effective and Ethical Use of Facial Recognition, AdTech and Breach Data (page 14)

## New Self-Paced Courses

**14 new courses  
in 4 training categories!**

- Alcohol and Substance Misuse
- Child Abuse and Neglect
- Endangered, Missing, and Abducted Children
- School Safety

Visit pages 3 - 6 for more details

## Gain New Skills - Attend a Conference

**NEW** National Internet of Things (IoT) Investigative Conference

Court Safety and Security Conference

School Resource Officer Training Conference

National Missing and Unidentified Persons Conference

Wisconsin Serving Victims of Crime Conference

Law Enforcement Administrative Professionals Training Conference

For details about our conferences, scan the QR code or visit [ncjtc.org/conferences](https://www.ncjtc.org/conferences)

# Virtual Training Opportunities

## Webinars

Do you have 60-90 minutes for a live or recorded webinar? Each month, we offer live webinars on the trending public safety topics that are important to you and your community. If you miss the live webinar, most webinars are recorded for future replay. You will find more than 160 recorded webinars to choose from!

Learn more at [ncjtc.org/web](https://ncjtc.org/web)

## Videos

For quick tips on trending public safety topics, we offer the Critical 3 Video Series. All Critical 3 videos are less than 10 minutes long and feature 3 key points about topics such as death investigations, sex offender management, wellness, missing children cases, leadership, and more.

New videos are added throughout the year.

Learn more at [ncjtc.org/critical3](https://ncjtc.org/critical3)

## Self-Paced Courses

Are you looking for full virtual courses that offer you the flexibility to learn from anywhere, on your own time? We have them. With more than 40 self-paced courses available in seven training categories, you will be sure to find training to fit your needs. Courses are taught by subject matter experts actively working in their field of expertise and vary in length.

Visit [ncjtc.org/selfpaced](https://ncjtc.org/selfpaced) for a current listing of our self-paced courses.

### Alcohol and Substance Misuse

#### **Drug Identification and Recognition: Depressants, Anti-depressants, and Inhalants**

Examine current trends, side effects, and the physiological conditions of commonly misused depressants, inhalants, sedatives, and anti-depressants. Key topics discussed include: muscle relaxers, GHB, solvents, interactions with alcohol, and the growing use among younger populations.

#### **NEW Drug Identification and Recognition: Dissociative Anesthetics**

Dissociative anesthetics are a class of drugs that can make users feel detached from reality and their environment and also distort how they see the world. These drugs can change the user's perceptions of sight, sounds, tastes, smells and feeling. They inhibit pain by cutting off the brain's perception of pain. This training covers two of the most popular dissociative anesthetics: PCP and ketamine.

#### **NEW Drug Identification and Recognition: Hallucinogens**

In recent years, the number of total Americans misusing hallucinogens has remained relatively flat, but the increased use by high-school aged students and young adults is a disturbing

new trend. This training is designed to help law enforcement officers and other criminal justice professionals employ the appropriate actions and safety measures when responding to illicit drug-related events. Training will discuss various type of commonly misused hallucinogens, current trends related to these substances, common effects of hallucinogens on the body, and how a user's current emotional state influences the hallucinogen's effects.

#### **Drug Identification and Recognition: Stimulants**

Explore and identify the various types of commonly used stimulants such as pharmaceutical stimulants, cocaine, methamphetamine, and natural stimulants. During this course, you will learn how to employ the appropriate actions and safety measures when responding to stimulant-related law enforcement requests.

#### **Drug Identification and Recognition: The Opioid Crisis in America**

Gain an overview of the chemical and legal classification of opioids and examine the national epidemic of opioid misuse. During this course, you will be provided key information and safety measures law enforcement and criminal justice providers should know when responding to opioid related events. You will also discuss community response and other evidence-based practices.

## Child Abuse and Neglect

### Child Abuse: The KNOW & TELL® Program

Learn the signs of neglect, physical and sexual child abuse in an effort to gain a better understanding of how to identify victims. KNOW & TELL is a public responsibility movement, to educate all adults to KNOW the signs of abuse and TELL responsible authorities when they recognize them. Awareness of these signs is a critical step to protecting our children and helping to educate others. We all have a responsibility to protect children.

### **NEW** Child Abuse: The KNOW & TELL® Program for Healthcare Providers

(THIS COURSE IS FOR CERTIFIED HEALTHCARE PROVIDERS ONLY) Learn the signs of neglect, physical, and sexual child abuse to identify a child victim and understand your responsibility as a healthcare professional and mandated reporter. Awareness of these signs is a critical step to protecting our children. We all have a responsibility to protect children. KNOW & TELL® is a public responsibility movement to educate all New Hampshire adults to KNOW the signs of abuse and TELL responsible authorities when they recognize them. Individuals living outside of the State of New Hampshire are welcome to participate in this training but should inquire with their own state as to reporting procedures and requirements.

### Interviewing At-Risk Children: When Child Pornography Cases Have the Potential of Being Hands-on Offenses

The more we learn about child pornography offenders likely committing hands on offenses, the more important it is to interview children to whom the offender has access. These cases are different from typical child sex abuse cases and they require a planned approach. Suggestions on how to manage these interviews and the barriers to be addressed.

### Legal Considerations in Child Abuse Cases

Learn how to prepare and present a winning case in child maltreatment proceedings or criminal prosecutions of child abusers. Topics addressed include ideas for successfully confronting common defenses, and ways to prepare witnesses, including children, to testify effectively and minimize the trauma they experience in court.

### Medical Diagnosis of Abuse

Learn state-of-the art techniques that an investigator can use in the assessment and investigation of non-accidental injuries. Various weapons, utilized by the offender in child abuse situations, are identified and demonstrated.

### Strategies for Supporting Resilience and Healing in Victims of Child Maltreatment

Child maltreatment has a wide range of effects on the individual, family, and community, however; professionals implementing trauma-informed practices can help to mitigate these effects and promote resilience and healing. Join us to gather strategies to address the mental health needs of victims, including tips for coordinating care among agencies investigating and prosecuting child maltreatment.

### Technology Facilitated Child Abuse Investigations

Discover how to use data to assist in the identification of missing and exploited children. Review a child exploitation case study from start to finish, and apply thinking outside the normal avenues to solve an investigation with technology.

## Child Sex Trafficking

### Child Sex Trafficking: An Overview

Gain an understanding of child sex trafficking victim dynamics, perspectives on sex traffickers and how human trafficking is the second most profitable crime in the world. Case examples will be utilized throughout the course to highlight real world examples of child sex trafficking.

### Child Sex Trafficking: Interviewing Victims

Gather step-by-step instructions on how to prepare for an interview with specific focus on important content, what topics to explore, and tips for ending an interview.

### Child Sex Trafficking: Prosecuting Child Sex Trafficking Cases

Develop a multidisciplinary team approach for responding to child sex trafficking cases that result in prosecution. Discuss topics such as search warrants, what charges to bring and other considerations and/or prosecutions issues. Explore victim-centered approaches and strategies to deal with the unexpected.

### FIT: Dynamics of CST Victim Interviews (Parts 1 & 2)

Learn the complex dynamics involved in a child sex trafficking interview. Gain an understanding of the impact of trauma bonding and Maslow's Hierarchy of Needs as they relate to traffickers recruiting and controlling minors. Recognize why the CST business model is important and how adolescent development plays apart in both trafficking and the interview process.

### FIT: Preparing for the CST Forensic Interview

Learn the importance of preparations as it relates to location, timing, observers and choosing the interviewer. Students will be able to list content that will be valuable to discuss during in a team meeting prior to the forensic interview. Dynamics for the alleged victim when scheduling the interview will be considered and documentation methods will be examined.

### Interviewing Bilingual and Immigrant Children

Identify barriers to communication and examine tactics for engagement during a bilingual forensic interview. Learn how to engage the family by utilizing tactics or tools to overcome the barriers when you have a case with Spanish-speaking children or families. Gather new resources and learn the steps families can take to utilize support services.

## Community Policing and Prevention

### Tribal Oriented Policing Strategies Online Training Program

The Tribal Oriented Policing Strategies Online Training Program fosters the use of organized problem-solving law enforcement and community teams to address key challenges, improve public safety, and enhance community quality of life. Review key principles learned during the TOPS classroom training. Topics include: defining community policing, successful community policing strategy, fostering positive community ethics, partnership building, and communication strategies. You will also learn about a six-step problem-solving model you can use to address specific needs in your community that brings results.

## Endangered, Missing, and Abducted Children

### **CART Commander Online Training (CART-COMM)**

Gather information on the structure and interdependent functions/roles of a CART program. Learn about protocol development and management, development and use of Memoranda of Understanding, CART composition, training including tabletop exercises and field scenarios, and CART certification standards. Examine a case study which integrates all topics covered for effective CART leadership.

### **Checklist Training for Investigative Officers**

The course will guide you through a case-scenario review of important checklist elements and considerations for effective use. You will be provided with information to support accurate and effective response to reports of endangered missing or abducted children, and effective transition from patrol first response to ongoing investigation of the case.

### **Child Abduction Response Team Training (CART-NM) for New Members**

Consider the scope and scale of the problem of missing and abducted children including CART structure, function and command considerations, investigative considerations, canvass operations, search operations, volunteer management, digital forensics, logistics, recovery, and reunification. Examine a case study in which all concepts taught are integrated and considered for an effective overall response.

### **Investigative Checklist Training for Patrol First Responders**

Gain an overview of the Patrol First Response investigative checklist resource. This training provides a guided case-scenario review of important checklist elements and considerations for effective use. Patrol officers can use this information to support accurate and effective response to reports of endangered missing or abducted children, and assist with steps essential to communicate information to arriving investigators.

### **Investigative Checklist Training for Supervisory Officers**

Gain an overview of the Supervisory Officer Checklist resource. The course will guide you through a case-scenario review of important checklist elements and considerations for effective use. You will be provided with information to support accurate and effective supervisory response to reports of endangered missing or abducted children, and effective coordination of case roles and responsibilities across patrol, investigations and outside resources.

### **Patrol First Response for Missing and Abducted Children (PATMAC)**

Provides law enforcement patrol officers with information and resources to promote swift and effective initial field response to incidents of endangered missing and abducted children. Learn about the scope, scale and nature of the problem. Examine best practices for initial on-scene response, important considerations for transitioning the investigation, and resources for law enforcement.

### **Responding to High Risk and Endangered Missing Cases – An Introduction for Law Enforcement Officers**

Gather important information to identify poly-exploitation which may have occurred while the child was missing, and the interview process. Learn about the scope, scale, and nature of problem, and how patrol and investigative officers can effectively respond.

### **Telecommunications Best Practices for Missing and Abducted Children (TELMAC)**

Provides law enforcement telecommunications personnel with information and resources to promote swift and effective response to incidents of endangered missing and abducted children. Learn about the scope, scale and nature of the problem, best practice policy, and protocols for telecommunications response. Review important NCIC record entry and data management considerations and resources for the communications center.

### **NEW Introduction to Missing Child Investigations in Indian Country (Course 1)**

Learn about the six key challenges law enforcement officers and supporting agencies working in or with Indian Country communities often face when a child goes missing, including: not having a clearly defined starting point for the investigation, proper identification and utilization of resources, increasing risk with the passage of time, the emotionally charged nature of the case, addressing and managing the media, and jurisdictional, geographic and cultural dynamics of investigative work in Indian Country.

### **NEW Initial Assessment - Missing Child Investigations in Indian Country (Course 2)**

Explore how to perform an initial assessment in a missing child investigation in Indian Country. Gain an understanding of the victim risk assessment and missing child categories is crucial in missing child investigations. During the training, you will review various missing child categories and identify factors that aid in the formulation of the initial assessment, a process of elimination based on the specific incident fact pattern as it relates to the missing child categories. This assessment process creates the foundation for the formulation of a strategy in the missing child investigation.

### **NEW Nonfamily and Stereotypical Abduction Assessments - Missing Child Investigations in Indian Country (Course 3)**

Learn how to perform nonfamily and stereotypical abduction assessments in a missing child investigation in Indian Country. During the training, you will explore the behavioral tools to assess whether the reported abduction is a nonfamily abduction, stereotypical abduction or possibly, a false allegation of child abduction. The behavioral aspects used in this assessment process will primarily focus on the victim's age and location of disappearance as these relate to the offender's behavior

and motivation. Understanding the common characteristics, motivations, and behaviors of offenders who abduct children can play a significant role in the successful investigation of missing or abducted children.

#### **NEW Initial Law Enforcement Response (Phase 1) - Missing Child Investigations in Indian Country (Course 4)**

The fourth course in the Missing Child Investigations in Indian Country (MCI-IC) online training series is designed to help law enforcement understand and apply processes in the first of four distinct phases in a missing child investigation in Indian Country. Phase 1 details the required actions of officers and supervisors who are first to arrive on scene.

#### **NEW Escalation of Resources (Phase 2) - Missing Child Investigations in Indian Country (Course 5)**

The fifth course in the Missing Child Investigations in Indian Country (MCI-IC) online training series is designed to help law enforcement understand and apply processes in the second of four distinct phases in a missing child investigation in Indian Country. Phase 2 details actions in the rapid escalation of resources and investigative activities required to simultaneously address multiple avenues of investigation in a timely manner once the basic facts regarding the child's disappearance have been obtained, and the information confirms the child has been abducted or is in danger.

#### **NEW Organization of Resources (Phase 3) - Missing Child Investigations in Indian Country (Course 6)**

The sixth course in the Missing Child Investigations in Indian Country (MCI-IC) online training series is designed to help law enforcement understand and apply processes in the third of four distinct phases in a missing child investigation in Indian Country. Phase 3 addresses the expanding investigation, and details how investigative efficiency and effectiveness can be achieved through the organization of resources and processes, therefore increasing the probability of a successful case resolution.

#### **NEW Continued Investigations (Phase 4) - Missing Child Investigations in Indian Country (Course 7)**

The seventh course in the Missing Child Investigations in Indian Country (MCI-IC) online training series is designed to help law enforcement understand and apply processes in the final of four distinct phases in a missing child investigation in Indian Country. Phase 4 addresses missing child investigations which have not been resolved during the preliminary investigative phases and that progress to a long-term or continued investigative phase.

## Leadership, Management, and Planning

### **Strategic Planning Process Online**

Learn the elements that are needed to develop a strategic plan for your OVC-funded victim services program. During this introductory class, you will review team roles and responsibilities, communication, and developing a shared vision. Goal development and data analysis will also be discussed.

### **Tool Kit for Grant Management**

Develop skills and learn tools to effectively coordinate a grant funded program. Explore advisory board identification and facilitation, effective meetings, grant financial management, grant reporting, and compliance with grant deliverables.

### **Tribal Justice System Planning Process Online**

Learn about the Tribal Justice System Planning Process (TJSP) principles and how a comprehensive tribal justice system strategic plan can improve public safety and the quality of life in your community. This online training course is designed for grantees who have not participated in the onsite TJSP course, as well as non-grantee tribes.

## School Safety

### **NEW Campus Safety Training Program: Behavioral Interventions Teams (BITs)**

The Office of Community Oriented Policing Services, U.S. Department of Justice and National Institute of Justice funded the National Policing Institute (formerly the National Police Foundation) to implement a project in 2015 to track incidents of averted school violence on a national level. As of April 2018, 51 reports had been filed, although it is suspected that many more incidents have gone unreported. An "averted incident" is defined as a planned violent attack on school grounds that is prevented before injury or loss of life has occurred. In tracking these incidents, five key actions have been identified to improve school safety, ranging from well-defined and practiced active shooter plans to focused plans promoting personal relationships with students.

### **NEW Campus Safety Training Program: Incident Command Systems (ICS) for Schools**

The Incident Command System (ICS) is a "response method that determines the role of everyone responding to a crisis and defines a shared vocabulary and shared expectations of behavior" (Texas School Safety Center, 2020). Agencies and first responders that provide assistance during a school emergency all use ICS during a crisis. It is imperative that school staff and safety teams understand and are comfortable using the ICS shared vocabulary when interacting with first responders during a crisis. Additionally, utilizing the shared vocabulary during the planning phases of critical incident response will assist in building trust and collaboration between diverse organizations.

### **NEW Campus Safety Training Program: School Reunification**

Gain an overview of the student reunification process and review the various types of situations that require reunification and key reunification terminology. Additionally, you will explore roles required for successful reunification, and recommendations about training stakeholders and practicing a reunification plan.

# Classroom Training Opportunities

NCJTC is proud to offer two formats for classroom training: Live Online Instructor Led and Onsite (In person). Both formats are real time and offer participant interaction with live instructors and other participants. Some of our most popular classes are offered in both an online and onsite format, while other classes are strictly onsite due to the nature of the training. We want you to get the most out of your training with the utmost flexibility.

Visit [ncjtc.org/training](https://ncjtc.org/training) for current upcoming training dates and formats.

## Alcohol and Substance Misuse

### Alcohol and Substance Misuse Customized Courses

Build your own course by combining modules (2 hours each) to produce a full day of training or spread out training sessions over several days. Visit [ncjtc.org/ASMcustom](https://ncjtc.org/ASMcustom) for more details and to request training.

### Community Drug Awareness Presentation

One way to promote a drug free community is to create more awareness of the issue within the community. During this presentation, your attendees will learn about opiates and methamphetamines, which have gained in popularity and negatively impacted your community. They will learn how substance misuse is affecting youth, how to recognize behaviors that are associated with misuse, and what medical responses are necessary.

### Core Drug Endangered Children (DEC) Awareness: Identifying Drug Endangered Children, A Collaborative Approach

Drug endangered children are part of a very large, and growing population of children whose lives have been seriously and negatively impacted by dangerous drugs. This training looks at overcoming the challenges in aligning agencies and systems responsible for preventing, intervening, and treating these issues to change the trajectories of the lives of drug endangered children and break multi-generational cycles of abuse and neglect.

### Crisis Awareness, Intervention and De-escalation Training for Tribal Partners

Examine common issues faced by law enforcement and service providers when encountering a person in crisis. Review methods to prevent or intervene in a crisis situation in which mental illness is a factor, including de-escalation and communication

techniques. Identify presenting symptoms of various types of mental health disorders and explore intervention strategies and methods for assessing the presence of suicidal intention.

### Current Drug Trends

The opioid crisis and the flood of other drugs has reached epidemic proportion in many of our communities. Learn more about this national challenge and other emerging drug trends such as Fentanyl, heroin, cocaine, methamphetamines, synthetic cannabinoids, and other chemicals. Explore the challenges associated with the legalization of marijuana in many states and vaping, Butane hash oil, and cannabis edibles. Learn about the stages of use, addiction, withdrawal symptoms, and the health and life-threatening dangers.

### Drug Endangered Children(DEC): From Tribal Community Awareness to Action

Join us to discuss approaches to overcoming the challenges in aligning agencies and systems responsible for preventing, intervening, and treating these issues to change the trajectories of the lives of drug-endangered children. Explore best practices in breaking the multi-generational cycles of abuse and neglect. Examine steps to implement the Drug Endangered Children (DEC) Approach, a comprehensive strategy based on a common vision, collaboration that is on-going between various disciplines and agencies, and on-going changes in practice.

### Drug Identification and Recognition to Support Tribal Justice

The opioid crisis and the flood of other drugs has reached epidemic proportion in many of our tribal communities across the nation. According to the 2018 National Survey on Drug Use and Health Tables, twice as many American Indians and Alaska Natives require treatment for addiction compared to any other racial and ethnic group. Recognize signs and symptoms of stimulants, hallucinogens, opiates, marijuana, alcohol, depressants, inhalants, dissociative anesthetics, and various drug combinations. Examine current drug trends and the legal considerations related to drug investigations.

### Drug Influence Detection

Review the 7-step approach to drug influence and identification which includes pulse, horizontal gaze nystagmus, vertical nystagmus, lack of convergence, pupillary comparison, pupil reaction and Romberg stand. Gain understanding in how the eyes react to drug influence and the effects on the central nervous system. Practice what you have learned using hands-on activities. This training is held in conjunction with Drug Identification and Recognition to Support Tribal Justice.

### Drug Trend Awareness to Support Tribal Justice

Review emerging drug trends such as Fentanyl, Fentanyl laced pills, heroin, cocaine, methamphetamines, synthetic cannabinoids, and other chemicals affecting tribal communities. Discuss specific challenges associated with vaping, butane hash oil, cannabis edibles. Explore the issues these “new drug delivery systems” have caused many states and tribal communities. Review the stages of use, addiction, withdrawal symptoms, and the health and life-threatening dangers posed from the misuse of substances. Recognize the signs and symptoms of drug usage, as well as how Naloxone/Narcan works in cases of opioid overdoses.

### Opiates and Why Heroin?

Learn which opiates and depressants are misused most frequently and about the dangers of new synthetics, including Fentanyl. Examine stages of use, addiction, and withdrawal symptoms, and the health and life-threatening dangers posed from use of these drugs.

### Local Drug Endangered Children(DEC) Alliance Development: Sustaining the DEC Approach

Examine the proven specific steps and techniques for local practitioners to establish a formal DEC alliance. Participate in instructor led discussions and activities focused on forming a local DEC alliance, the challenges of collaboration and sustaining that collaboration, and the benefits of changing practices and procedures on an on-going basis to benefit drug endangered children.

### The Drug Endangered Children (DEC) Approach: Moving From Awareness to Action

Identify risks to drug-endangered children and what to look for when collecting evidence and information on drug endangered children. Review pictures and videos of real DEC scenarios to assist professionals in understanding what to look for regarding the “life of the child”.

## Child Abuse and Neglect

### Child Abuse: From Suspicion to Disclosure

Learn the best approach with children who are alleged victims of child abuse in the initial phases of a case, after a concern has been identified. Develop the skills and techniques necessary to engage a child in such a way as to minimize suggestibility but still provide support, beyond what is taught in a First Responder Training. Review best practices in identification of a concern and learn to engage these children in a way that maximizes positive case outcomes and minimizes potential behaviors that can hurt cases.

### Conducting Child Abuse Investigations

Gather up-to-date information for the investigation and prosecution of all types of child abuse cases utilizing a multidisciplinary team (MDT) approach. Learn about medical evidence, interviewing child victims/witnesses and adult suspects/witnesses, along with legal issues involved in the investigation and prosecution of child physical and sexual abuse cases. Discuss trends in offenders’ use of technology, the use of child sexual abuse material (CSAM), and sextortion. Learn law enforcement investigative techniques that capitalize on new technology.

### Creating a Community Action Plan for the Prevention of Child Sexual Abuse

Join other child-serving professionals to create a plan of action for preventing child sexual abuse of youth in your care. Learn

the signs and symptoms of child sexual abuse, mandated reporter and stakeholder responsibilities. Identify strengths and weaknesses of current prevention practices, and develop an action plan for your organization.

### Following the Evidence in Child Exploitation Cases

Examine the importance of multidisciplinary team (MDT) case coordination and evidence corroboration in the investigation of child abuse cases. Learn how to evaluate evidentiary findings through crime scene images, interviews, and case studies. Understand multidisciplinary team members’ roles and responsibilities for protecting child victims and offender prosecution.

### Presenting Evidence in Child Forensic Interviews

Explore how different types of evidence can be used in forensic interviews of children in abuse, witnessing violence and exploitation cases. Learn how to present different types of evidence in the context of a child-centered, trauma-informed, and legally defensible forensic interview approach. Practice techniques and develop skills to present different types of evidence in child forensic interviews.

### NEW Responding to Sextortion Related Offenses Against Children

Sextortion using technology is an increasing trend seen by law enforcement. During this training, we will identify the methods and tactics used by offenders, and describe why youth are vulnerable to these tactics. Learn about the long-term impact of these crimes on victims, victim-centered responses, and reporting these crimes to law enforcement, National Center for Missing and Exploited Children and the electronic service provider(s). This course will conclude with identifying effective Sextortion prevention messages for youth, parents and educators.

### NEW Strengthening Child Abuse and Exploitation Cases with Statement Evidence

Learn the tools and strategies for enhancing communication skills to maximize the information that is obtained from individuals during child abuse and exploitation investigations to improve case outcomes. These interviews could be with non-offending spouses, caregivers or other family members or friends. This skills based training is designed to put an emphasis on being “victim-centered” while also being trauma-informed.

### What Are They Running From? Youth Trauma and Addressing Adverse Childhood Experiences

Discuss why juveniles runaway and dangers that apply to youth during this time-frame. Explore strategies for interrupting chronic runaway behavior, while providing a tool to help assess and document runaway reasons, behaviors, and intervention options. Consider trauma that can occur during these runaway events and approaching youth during traumatic events.

## Child Sex Trafficking

### CST Forensic Interview Training (CST FIT)

Develop the skills and techniques to conduct developmentally appropriate forensic interviews with victims of child sex trafficking. Learn the differences between interviewing children in child abuse cases and interviewing child sex trafficking victims. Review victim-centered interview methodology with special emphasis given to understanding the factors contributing to child sex trafficking victimization and the impact on development and effects of trauma. Visit [ncjtc.org](http://ncjtc.org) for pre-requisite information.

### Child Sex Trafficking: From Suspicion to Disclosure

Learn techniques and strategies to enhance the likelihood of obtaining information from possible victims of child sex trafficking. Compare and contrast typical child sexual abuse cases with child sex trafficking (CST) cases and address the different points of entry into the criminal justice and welfare system for CST victims. Understand various disciplines' roles and responsibilities and how they can contribute to a positive outcome of the CST case. Discuss question strategy, interview dynamics, language use, and interview suggestions.

### **NEW** Child Sex Trafficking Investigations: Strategies to Increase Prosecutions of Traffickers of Missing Children

Child sex trafficking (CST) is like no other crime. Victimization may happen hundreds of times and can be difficult to identify due to the victims being missing children coupled with the trafficker's hold on victims. Dissect the crime of CST, its complex nature, and discover how to investigate this crime fully. Develop trauma-informed approaches to ensure your victim interview does not retraumatize and you gain critical information to identify corroborative evidence. Examine the trafficker's profile and motivation, how they impact your suspect interview, and proven suspect interview strategies. Recognize common evidence available, legal hurdles, and common defenses of traffickers.

### Multidisciplinary Team Response to Child Sex Trafficking (MDT to CST)

Improve multidisciplinary team (MDT) responses to child sex trafficking (CST) cases. Gather information about improving or establishing a formal MDT in your community. Identify gaps and develop short- and long-term response plans with the help of subject matter experts.

### Prosecutor's Strategies for Child Sex Trafficking and Exploitation Cases

Gain the tools and skills necessary to better prosecute cases involving child sex trafficking and exploitation. Examine topics including charging strategies, courtroom tactics, corroborating victims, developing witness testimony, plea bargains, and motion hearings. Learn how to effectively develop a trial strategy and discuss various pre-trial and trial issues including identifying and working with witnesses and experts, preserving testimony, and responding to unexpected issues during trial.

## Community Policing and Prevention

### Improving Youth Interactions through Fair and Impartial Justice

Built on evidence-based principles to support an enhanced understanding of youth interactions with the justice system. Gather tools to build strong youth relationships, enhance interactions with youth, and create effective interventions to divert at-risk and minority youth from the justice system offering an unmatched return-on-investment.

### Reimagining Policing: Strategies for Building Community Relationships that Last

Gain insight and strategies to maximize how police agencies can connect with their community and important stakeholders through ongoing dialog and partnerships. Consider minority perceptions of policing due to historical events and ways to overcome some of these barriers. Discover strategies for creating a "learning organizational culture" while appreciating the fragile relationship with our communities.

### Verbal De-Escalation and Conflict Resolution

Avoid potential conflict both professionally and personally by learning to organize your thinking and responding calmly. Consider the approaches you can take to prevent and respond to verbal conflict. Explore the communication process, conflict prevention, and help you understand why conflicts occur. Learn how de-escalation techniques and communication skills can potentially defuse tense situations and lead to more successful outcomes.

## Courts and Community Corrections

### Addressing Violence Against Women through Motivational Interviewing

Explore motivational interviewing as a trauma-informed interviewing/interacting technique that focuses on creating supportive, meaningful and strategic conversations. Examine how motivational interviewing supports victims/survivors in the healing process and offenders in the behavior change process. Review evidence-based practices as the context to have these conversations in.

### Advanced Motivational Interviewing for Tribal Probation Officers

Motivational Interviewing (MI) is a trauma-informed interviewing/interacting technique that focuses on creating supportive, meaningful and strategic conversations. This advanced training will provide the context of evidence-based practices on how to have these conversations and will leave you with practical skills to engage in short and effective conversations to initiate, or facilitate, the process of behavior-change and effective support.

### Circles of Support and Accountability

Circles of Support and Accountability are a research supported restorative practices designed to hold high-risk offenders accountable and provide support through a group of committed volunteers and professionals. The model is designed to involve community volunteers in the risk management process regarding high risk/needs offenders. The circle is comprised of a person released back to the community (i.e., the “core member”) and between three and five community volunteers.

### Drug Identification and Recognition for Tribal Probation

Explore techniques to recognize drug influence when conducting home visits, search and seizure, or during other interactions with probationers. Develop the critical skills to recognize common paraphernalia and the signs and symptoms of persons under the influence of stimulants, hallucinogens, opiates, marijuana, alcohol, depressants, inhalants, and dissociative anesthetics through hands-on instruction.

### Implementing Evidence-Based Practices in Tribal Community Corrections

Explore the eight principles of effective offender intervention and how they impact your department/agency. Develop a departmental vision and mission statement to support evidence-based practices (EBP). Develop goals, objectives, and action steps for organizational change and development of EBP. Establish measures for evaluation of program and individual success.

### Improving Supervision Outcomes for Drug and Alcohol Involved Probationers

Explore promising practices in supervising drug/alcohol-involved probationers/parolees in a community-based setting.

Examine the importance of utilizing Risk-Need-Responsivity principles, community-based sentencing options, effective case planning and graduated responses to increase public safety and long-term behavior change. Discuss how stakeholders can contribute to improve outcomes for this population.

### Improving Supervision Outcomes for Probationers with Mental Health Disorders

Identify basic mental, sociological, and educational characteristics of the mentally ill offender population. Explore strategies to address mental health and addiction concerns in crisis and non-crisis situations. Examine the complexity of co-occurring disorders and the interventions that are most effective. Gather tools to implement an action plan that addresses suicidal thoughts or behaviors, self-injury, reaction to trauma, overdose or withdrawal symptoms and others.

### Justice Teams Training to Support Community Corrections

Identify the obstacles justice teams have in effectively implementing community corrections programs. Explore and practice problem-solving methods. Develop an action plan to address the identified barriers to program success.

### Strengths-Based Approaches to Supervising High-Risk Populations

Explore strengths-based supervision strategies and case management skills for the following populations on probation: probationers with mental illness, alcohol and substance abuse addiction, and domestic violence offenses. Engage in a variety of activities to enhance your ability to effectively case manage high risk populations. Examine strategies for multi-disciplinary team building to support tribal community corrections.

### Tribal Probation Academy

Build foundational skills through this comprehensive and interactive training academy. Examine traditional, evidence-based, and alternative approaches to community supervision. Practice techniques in mock interviews, scenarios and team exercises. Explore the benefits of peacemaking, restorative practices, and cultural resources.

### Victim/Survivor-Centered Approaches to Community Supervision Customized Training

Build your own course by combining different training topics together to address grant program implementation and needs in your community. Visit [ncjtc.org/supervision](http://ncjtc.org/supervision) for more details and to request training.

## Death Investigations

### Child Homicide Investigations\*

Join us for an intensive training focused on understanding and building relationships between the forensic pathologist, homicide investigator, and prosecutor in successfully investigating and prosecuting child homicide cases. Learn autopsy protocols, forensic essentials, and the criticality of determining the cause and manner of death. Understand the unique aspects of investigating a child homicide including interviewing and interrogation, suspect pool development and the role and importance of the prosecutor in gaining appropriate convictions.

### Conducting Unexplained Child Death Investigations

Learn how to utilize the evidence to support the proper conclusion in cases involving the unexplained death of a child. Discuss possible causes of death and gain best practices and tips including various investigative steps for first responders to evidence collection, witness and suspect interviews, medical examination and legal considerations for prosecution.

### Enhancing Investigations through Genetic Genealogy

Explore and discuss the application of Forensic Genetic Genealogy (FGG) and how it aids in investigations. Techniques instructed will include tips for establishing the identities of cold case suspects and identifying human remains. Learn from experienced investigators who have utilized the application of forensic genetic genealogy through real-life cases. Discuss topics including forensic genealogy techniques, investigative strategies for developing leads and information.

### Fire and Explosion Related Death Investigations

Join other investigators to gather new information and tools for investigating fire and explosion related deaths. Examine the principles of fire behaviors, areas of focus in fire related deaths, working with the medical examiner's office and evidence/scene safety considerations.

### Investigating and Prosecuting No Body Homicides

Join us to hear from experienced instructors as they provide the framework and tools to build a prosecutable circumstantial case—regardless of the age of the case—from proving the victim is dead using established practices such as victimology, interviews documents/records/digital footprint to search strategies and best practices in documentation. Learn established prosecution strategies that maximize the likelihood of success.

### Investigation and Prosecution of Cold Case Homicides\*

Improve investigative techniques and efforts on long-term missing and cold case investigations. Learn from case studies, interactive case discussions, and specific techniques to improve the skill and capacities of law enforcement personnel assigned to long-term missing cases. Learn investigative and prosecutorial strategies for the investigator.

### NCJTC Death Investigation Academy\*

In this five day training, explore strategies for conducting death investigations that occur from several origins. Learn how to evaluate the crime scene, conduct effective interviews and interrogations, develop case leads, utilize investigative resources and comprehend medical autopsies.

### Responding to an Unexplained Child Death

Learn about the roles of law enforcement, first responders, investigators, and child protective services when investigating the death of a child. Receive an overview of the important investigative tips and information related to the causes of death, and the duties and investigative needs of the medical examiner/coroner.

### Suspicious Death Investigations: Finding the Right, Eliminating the Wrong, and Avoiding the Undetermined\*

Examine case studies based on the experiences of a homicide detective and forensic pathologist. Identify key scene findings and correlate these findings to the autopsy results. Explore communication methods between agencies and find out how unique features of a case can affect the direction of the investigation.

*\*These courses are accredited by the American Board of Medicolegal Death Investigators (ABMDI).*

## Endangered, Missing, and Abducted Children

### AMBER Alert Activation Best Practices (AAABP)

Enhance your agency's AMBER Alert activations by utilizing new strategies. Examine training requirements and procedures for activating an AMBER Alert and gain an in-depth review of current best practices, trends and analytics, and industry leaders. Explore current abduction trends, laws related to mandatory notifications, yearly statistics, and resources available during an activation.

### Child Abduction Response Team Training (CART)

Take steps toward implementing a successful Child Abduction Response Team (CART) by bringing together a team of experts whose knowledge, skills, and abilities will be beneficial in a child abduction case. Examine incident command considerations, search and canvassing operations, CART activation, and resources to improve the response, investigation, search, and canvass activities associated with missing children investigations.

### Child Abduction Tabletop Exercise

Test the organization's response in conducting an initial investigation into searching for a missing or abducted child using the Incident Command System. Employ strategies and responses in mitigating and resolving the emergency. Participate in a multidisciplinary tabletop exercise to build cohesiveness within the investigative team when responding to an emergency.

### **Child Abduction Tabletop Exercise in Indian Country**

Test your community's response in conducting an initial investigation, search and canvass activities for a missing or abducted child scenario occurring on tribal lands. Employ strategies and responses in mitigating and resolving the emergency. Participate in a multidisciplinary, multi-jurisdictional tabletop exercise, to build cohesiveness with tribal, State, local and federal partners when responding to an emergency.

### **Community Response to Missing and Exploited Children in Indian Country**

Examine the AMBER Alert program, efforts to identify and prevent child exploitation, and best practices for planning and executing the initial response when a child goes missing on tribal lands. Explore resources and tools currently available to assist in missing child investigations. Discuss strategies to improve the community's response to missing and exploited children.

### **Initial Response Strategies and Tactics when Responding to Missing Children Incidents**

Gain best practices strategies for search and canvass implementation. Review the investigative activities that occur during an endangered missing or child abduction investigation, and how their actions influence the short- and long-term response of law enforcement. Learn the impact these cases have on the family and on your response. Examine the critical first steps for first responders, initial supervisory and investigative response.

### **Investigative Strategies for Child Abduction Cases**

Understand, recognize, and investigate cases involving missing and abducted children. Determine scope and scale issues and how to manage a missing or abducted child case. Explore crime scene evidence collection and processing, profiling suspects and legal issues, including search warrants and interrogation related to a missing or abducted child.

### **Missing Child Investigations in Indian Country**

Learn how to effectively perform missing child investigations occurring on tribal lands. Examine the AMBER Alert program, best practices for planning and executing the initial response when a child goes missing, effective investigative case management strategies, timely introduction of resources in missing child investigations, best practices in search and canvass operations, and how to incorporate culturally appropriate victim support services into your investigation. Explore resources and tools currently available to assist law enforcement officers in missing child investigations.

### **Response to At-Risk Missing and High-Risk Endangered Missing Children**

Gather information on how to engage and construct a collaborative response to at-risk missing and high-risk endangered missing children. Explore how a missing child's path to becoming a victim of exploitation intersects with the child protection, law enforcement and juvenile justice systems and acts as a risk factor to abductions. Identify opportunities within those systems for prevention and engagement. Examine the complex, layered exploitation these victims endure and how exploiters capitalize on this victimization.

### **Search & Canvass Operations in Child Abductions**

Seconds count when a child is missing. Gain the critical skills needed to construct and manage effective search and canvass operations to recover the child. Recognize crucial cell phone

and technology-related evidence which can help locate the child and track the abductor. Explore relevant legal issues associated with criminal cases against those who abduct and harm children. Participate in hands-on exercises designed to test your knowledge and application of the material and prepare you for your next missing child case.

### **Southern Border Initiative Cross Border Child Abduction Training**

Learn current trends and collaborate with participants representing child protection and public safety officials from border communities, state, federal, and tribal public safety in Mexico and the USA. Address issues in your community related to cross border abductions, child exploitation, and human trafficking.

### **Telecommunications Best Practices for Missing and Abducted Children**

Gather the tools and resources you need to promote swift and decisive responses to reports of missing, abducted and sexually exploited children. Learn how public safety telecommunications centers can develop, train, and prepare for immediate and comprehensive response during the critical, early stages of an incident.

### **Unresolved Missing Person Cases in Indian Country**

Discover proven investigative strategies and acquire the requisite skills to investigate and manage unresolved homicides and long-term missing children and adult cases in Indian Country. Explore the roles and responsibilities of an unresolved case team when working these investigations. Gain insight into the dynamics of violent crime investigations, missing persons, homicides, and no-body homicide investigations. This course is consistent with Best Practice recommendations published by the U.S. Department of Justice, National Institute of Justice.

## **Leadership, Management, and Planning**

### **NEW A Bridge Towards Change: Successful Tribal Resource Planning**

Examine an array of resource and strategies that will support all stages of successful project planning, development, and sustainability. Identify problems, analyze change conditions, and build a plan to use resource strategies that are relevant to your community project. Explore the six-step process as a guide for successful completion of project goals, deliverables, and overall implementation. Participants will participate in team building exercises to increase knowledge about program sustainability and resource utilization.

### **Community Analysis Process for Planning Strategies (CAPPS)**

Learn techniques to enhance collaborative efforts between service agencies and community members, identify community issues, and create unified responses. Devise long-term goals and an action plan to successfully implement grant projects.

### **NEW Effective Outreach Efforts in your Tribal Community**

Examine the soft skills necessary to engage your community members and facilitate impactful discussions about criminal justice related topics. Review common practices and techniques that will improve community education campaigns, programmatic outreach activities, and group facilitation, including leading a successful MDT/CCR. Discover strategies on how to tailor presentations to audience needs, keep people engaged, and use technology as an effective learning strategy.

### **NEW How Do You Measure Up? Examining Tribal Program Effectiveness**

Organizations should routinely assess their capacity to serve their community and fulfill the stated mission. In this training, define the evaluation process and review the tools that help determine the impact you have within your community. Review best practices for documenting the impact of program services that achieve grant deliverables, strengthen future funding opportunities, and build new programs that assist your community. Emphasize continuous improvement processes that build accountability, prioritize problem-solving strategies, and align measurable outcomes with organizational strengths.

**Managing the Media Message: Your Agency's Story and How You Tell It**  
Building strong relationships with key supporters and the media before a crisis occurs will open lines of communication during adverse situations. Join us to learn how agencies can best tell their story, whether it is to build positive messaging, crisis communications, or to provide continuity of operations following an incident.

### **NEW One Seed At A Time: Tribal Action Planning Strategies**

A comprehensive strategic planning process designed to meet the needs of your tribal program. Instructors will engage your local team in defining roles and responsibilities, identifying strengths and weaknesses, and developing critical mission and vision statements. Consider and integrate data collection methods into an action plan and create measurable goals/objectives to overcome barriers. This training and technical assistance class will produce a final strategic action plan that will guide your project over the next 3-5 years.

### **Organizational Resiliency Starts with You!**

Discover the relationship between self-care and organizational resilience. Organizational resiliency promotes an inclusive work environment, strengthens employee retention, and improves workplace satisfaction. Gain strategies to understand, assess and support work culture and morale. Explore how ethical leadership influences a resilient culture and how a focus on self-care impacts organizational effectiveness.

### **Strategies for Instructional Excellence**

Develop and enhance the skills of the 21st Century criminal justice instructor or trainer. Examine how adults learn and explore effective instructional methods. Develop a structured learning plan, apply adult-learning techniques, utilize instructional technology, evaluate learner retention strategies, and the legal implication of instruction.

### **Students First! Making an A+ Impact**

Transform the way you approach instruction and training! Learn how to demonstrate and apply techniques that will maximize your instructional effectiveness. New and even senior instructors are bombarded with constantly evolving instructional challenges and requirements. Explore a variety of solutions to meet these challenges.

### **NEW Tribal Program Effectiveness Checklist**

Are you interested in an individualized assessment that acknowledges your strengths, identifies your current and potential capacity level, and offers recommendations to improve the effectiveness of your program? NCJTC can help determine how impactful your program is throughout your community using our capacity and effectiveness checklist. Our team will measure and report the impact you are having in areas of staff capacity, organizational values, program design and operations, community involvement and sustainability. As part of our checklist, we will provide you with recommendations that will help address identified gaps in capacity. If you are interested in the continuous improvement of your program and would like to plan new strategies to enhance your capacity, reach out to our staff today!

### **Tribal Justice System Planning - Phase 1: Working Together**

Learn new strategies to enhance collaborative efforts for justice system planning. Define quality of life and vision/mission statements for your justice system.

### **Tribal Justice System Planning - Phase 2: Identify Strengths/Needs**

Understand how to conduct focus groups, stakeholder interviews, community meetings, and needs assessments. Create a strategic plan by performing a needs assessment to identify justice system strengths and gaps. Utilize customized technical assistance to analyze your needs assessment results.

### **Tribal Justice System Planning - Phase 3: Goal and Action Steps**

Compose effective goals and feasible action steps based on emerging themes from your needs assessment. Prepare an evaluation and performance metrics to measure the success of your justice system strategic plan.

### **NEW Tribal Victim Advocacy Training Workshop**

Discover the core elements of advocacy for victims of crime. Acquire and practice skills that empower victims of crime, including enforcement of rights, building collaborative partnerships with criminal justice agencies, and an overview of the key responsibilities of an advocate. Explore the importance of empathetic listening and communication with victims of crime and practice the essential skills to communicating with trauma victims and survivors of crime, including reflective listening, validation, and trust-building questions.

## Sex Offender Management

### Community Approaches to Sex Offender Management

Combat recidivism and sexual violence posed by sex offenders based on management and treatment best-practices. Learn how treatment, supervision, law enforcement, and the community at large can increase the offender's chances of a pro-social non-offending lifestyle. Explore response strategies for adults and juveniles who commit sexual offenses.

### Sexual Offenses: Mind and Motivation

Gain an introduction into the psychology, or mindset, of those that commit sexually motivated crimes. Learn about sex offender typologies and patterns of behavior. Explore the relationship between paraphilia such as exhibitionism, voyeurism, and fetishism and criminal acts. Review and dissect real case examples to gain insight into offender modus operandi. Knowledge obtained can be applied during interview and interrogation to help resolve sexually motivated cases.

## Technology Investigations

### Beyond Google - Discovering Online Resources in Investigations

Examine open source online intelligence/information and learn how to leverage free platforms, databases, and web applications to strengthen criminal cases. Uncover little known facts and techniques to optimize results using online search engines and online internet resources. Learn how to complete and serve search warrants for a variety of electronic information and databases. Develop new skill sets to establish contacts and open-source intelligence networks to provide ongoing intelligence.

### Casting the Digital Footprint

Technology impacts almost every type of investigation today. Uncover the information technology users knowingly and unknowingly leave behind when accessing and using electronic devices. Learn how to covertly strengthen your investigations through gathering personal, public and open source data. Discuss techniques to locate evidence through technologies that can benefit any type of investigation.

### Criminal Connections: Child Exploitation Material and Child Sexual Abuse

Explore investigative strategies that address the relationship between child sexual abuse and child sexual abuse materials (child pornography) to supplement an investigation and corroborate victim statements. Gather new tools and resources for the most comprehensive case outcomes.

### NEW Effective and Ethical Use of Facial Recognition, AdTech and Breach Data

Big data, facial recognition, and open source information are emerging areas for law enforcement and investigators. During this training, we will focus on effective and ethical use of big data, facial recognition, and open source information to assist officers with investigations. Explore case studies and a hands-on review of different big data, facial recognition, and other sources of investigative pertinent data. Agency controls, user limitations and exculpatory evidence considerations will also be addressed.

### Mobile Device Investigations

Learn current cell phone related strategies and techniques for any type of investigation. Explore and apply current practices for working with different cellular network providers, completing technology-focused search warrants, analyzing cellular provider call data, associating reported data to the investigation and effective case reporting strategies.

### Protecting Children in a Digital Age

Learn about the technology that our youth are using and the role that it plays in their lives to create better understanding and open up meaningful communication. Increase awareness of opportunities to protect and connect with children while also gathering valuable information to mitigate threats posed by individuals who seek to exploit them.

## Victims and At-Risk Populations

### NCJTC Sexual Assault Investigation Academy

Explore strategies for conducting comprehensive sexual assault investigations. Learn how to support victims, gather and maintain evidence, manage crime scenes, conduct effective interviews and interrogations, utilize investigative resources (SANE nurses and support services), and prepare cases for prosecution.
