

For the past 30 years, we have worked hard to provide you with the most up-to-date training opportunities to help you support those you serve and to grow professionally. Public safety concerns have been changing quickly so in turn, we need to as well. Our promise to you is to be responsive to your needs, implement updates swiftly, and develop new training solutions responsibly. We invite to keep reading to see what's new at NCJTC.

Thank you for choosing NCJTC for your training and technical assistance needs. We are proud to serve you and your communities.

- Ways to Corroborate Information Obtained During a Forensic Interview
- Working as a Multidisciplinary Team (MDT) to Investigate Child Abuse

## NCJTC in the News

### Knowledge-Sharing Mission

The AMBER Alert Training and Technical Assistance Program, and its partners from the Virginia State Police and New York State Police / New York State Division of Criminal Justice Services met with delegations from Bosnia-Herzegovina and Serbia at the U.S. Department of State in Washington, DC, June 12, 2023, to discuss best practices for building and sustaining AMBER Alert plans.

### New Indian Country Course Taught in New Mexico

Michael LeMieux (right)—an AMBER Alert Training and Technical Assistance Program/AMBER Alert in Indian Country instructor and member of the Oneida Nation in Wisconsin—joins AATTAP/AIIC instructor William LeCompte (a member of the Standing Rock Sioux Tribe of North/South Dakota) in teaching a newly updated Unresolved Missing Persons in Indian Country course to participants in Bernalillo, New Mexico (shown at the Santa Ana Star Casino Hotel).

"Both law enforcement veterans are highly experienced in cases involving Tribal and federal law enforcement, which is a major asset for us—and each group of class attendees," said AIIC/AATTAP Project Coordinator Val Bribiescas.

### High Fives to the Fab Four Region

AMBER Alert Coordinators, Missing Persons Clearinghouse Managers, and public safety officials from the 10 states in blue (see map) joined AMBER Alert Training and Technical Assistance Program (AATTAP) and AMBER Alert in Indian Country leaders for a great meeting today in Little Rock, Arkansas. The Region Four conference focused on each state's missing child-related trends/prevention efforts, investigation best practices, and training/technology goals.
