Serving Criminal Justice Professionals for 30 Years

As 2023 comes to a close, we take time to reflect on the relationships and partnerships that have been developed this past year. We understand that working collaboratively will lead to better outcomes and success when tackling complex issues. We deeply value our long-standing partnerships with some of the nation's leading providers in the areas of Tribal justice, law enforcement, child safety, and victim services. These relationships, along with our talented and diverse staff, equip us to be responsive to a multitude of criminal justice and community needs.

For over 30 years, NCJTC has placed an emphasis upon providing training and technical assistance to rural, tribal, and underserved communities. We developed our training and technical assistance approach by listening and understanding needs first and then responding to each unique circumstance.

"NCJTC is dedicated to developing new programs and resources to meet the constantly evolving needs of the criminal justice communities we serve. In addition to an array of scheduled regional training events, NCJTC stands ready to assist you in hosting technical assistance and other programmatic support activities important for your community."

-Bradley Russ, Executive Director of NCJTC

We are also truly grateful to be entrusted by the U.S. Department of Justice to carry out training and technical assistance that support our nation's largest criminal justice initiatives and priorities. Helping you gain the skills you need to serve your community is our mission. We look forward to serving your training needs in the new year and for years to come!
